Totals		\$1,175.26	\$500.00	\$675.26	\$0.00

Plain-language summary: The shorter you keep the loan outstanding, the less you pay in interest. A loan kept for 3 months will cost significantly more than the same loan repaid in 2 weeks. Customers who pay early or pay extra toward principal reduce the total cost of their loan.

Late payment and returned-payment (NSF) fees: If a scheduled payment is late or returned for insufficient funds, additional fees may apply. The amount of any late fee or NSF fee is disclosed in your loan agreement and is charged only if triggered. These fees are not included in the payment schedule above.

Examples reflect the rate structure published on our Fee Schedule for the loan shown. Your actual APR, interest, and repayment schedule will depend on the loan amount, term, and product you select, and will be disclosed in your loan agreement before you sign.
